

Sci-Fi Mystery

A terrorist is destroying android units in the 25th century while a nine year old incident arises. A woman leaves an incriminating letter at the Tucson Police Station. Detective Alex Blackhawk takes his wife on their vacation to Mars when a man dies after an explosion in the cargo bay. Alex steps in and goes to work. One android is compelled to follow the three laws of robotics and helps the detective solve the crime.

Science Fiction Mystery

After a man is found dead on a returning ship in the cargo hold from Mars. Detective Blackhawk's investigation leads him to Washington D.C. Convinced going undercover will solve their case, he ends up trapped in a mining crater on the red planet. His wife, Jan, won't sit still waiting for him to return home. She and his partner join forces with the Mars operation's chief to find out who is responsible for the kidnapping.
